On Monday 25th Sept at 09.46 I sent you an email to register my objection to the above mentioned sale, My name is [REDACTED]
[REDACTED] I requested that I was sent a confirmation that my objection had been received so that I had proof of my sending in the objection, as that has not happened I have today called by phone the Town Hall to check and been told I have used the wrong email address, so please if this one gets through can you please confirm it, I did also add the Town Hall at gov.org.uk to the original as I thought a safeguard but am now told that does not exist either, I have also sent copies to rachael.beard@communities.gsi.gov.uk my original letter was as follows

Mr Nicholas Edwards, please note that I [REDACTED]
[REDACTED] wish to register my objection to the proposed sale of public land on Royal Albert Drive, Scarborough, as the council did without planning application demolish the previous buildings on the site in spite of the fact that an offer had been made to take over the running of the existing buildings which would have saved the council many thousands of pounds, this site is not an appropriate area for residential or holiday accommodation and should now be retained as open space.

Please acknowledge this email for my file.

My Regards for your hoped for help,

[REDACTED]
Resident of the area
